

REQUIRED DOCUMENTATION FOR SOFOM DUE DILIGENCE

The following documentation is required to begin the due diligence review of a Multiple Purpose Financial Company ("SOFOM"), whether in connection with a potential acquisition, investment, financing or corporate review.

Documents should be organized by subject matter and uploaded to a secure data room with clear file names. If a document does not exist, is not applicable or is still in process, please provide a brief explanation and any equivalent evidence available.

1. Corporate, Tax and Registry Documentation

These documents allow us to confirm the legal existence, basic tax status and registry standing of the SOFOM.

Required documentation	Document available
Copy of the current bylaws of the SOFOM, including incorporation deed, amendments to the bylaws and, where available, any consolidated corporate text.	☐
Recent Tax Status Certificate issued by the Mexican Tax Administration Service (SAT).	☐
Official acknowledgment, certificate or evidence of issuance, renewal or current validity of the SOFOM e.firma.	☐
SOFOM e.firma. The .cer and .key files, passwords and other sensitive credentials should not be sent by email; where necessary, they should be reviewed through a secure protocol, encrypted channel or supervised remote session.	☐
Certificate, record or evidence of registration of the SOFOM with the Public Registry of Commerce.	☐

2. AML/CFT Compliance and Regulatory Supervision

These documents allow us to review the anti-money laundering and counter-terrorist financing framework and the basic regulatory compliance status of the SOFOM.

Required documentation	Document available
Anti-Money Laundering and Counter-Terrorist Financing (AML/CFT) Manual, including the risk-based approach and evidence of internal approval.	☐
AML/CFT technical opinion issued by the National Banking and Securities Commission (CNBV), together with any observations, remediation plans or follow-up evidence, if any.	☐
Proof of payment of CNBV supervisory fees, if applicable.	☐
Agreement with the provider of the automated AML/CFT monitoring system used by the SOFOM, including, where available, a description of rules, scenarios, alerts, investigation workflow and closure criteria.	☐

3. Authorizations, Registrations and Regulatory Portals

These documents allow us to confirm that the SOFOM has the registrations, access profiles and acknowledgments required to operate and report through the applicable regulatory platforms.

Required documentation	Document available
Authorization, registration, acknowledgment or applicable evidence before CONDUSEF/SIPRES to operate as a SOFOM, depending on the type of entity.	☐
Keys, acknowledgments or evidence of registration before the Financial Services Providers Registry System (SIPRES). Passwords or access credentials should not be sent by email.	☐
Keys, acknowledgments or evidence of registration before the Integral Information System for Financial Services Operations (SITI), including acknowledgments of relevant reports, if applicable. Passwords or access credentials should not be sent by email.	☐

4. External Providers, Credit Information and Technology Access

These documents allow us to review the operational and technology infrastructure supporting the provision of financial services by the SOFOM.

Required documentation	Document available
Agreement executed with a credit information company, including annexes, operating terms, service levels and confidentiality obligations, where available.	☐
Description of the APIs used by the SOFOM and, where applicable, agreements, authorizations, technical documentation or evidence of relevant integrations.	☐
API keys, tokens, secrets, private keys, administrator passwords or other sensitive access elements should not be sent by email; where necessary, they should be reviewed through controlled access, a secure channel or a supervised remote session.	☐

5. Data Room and Controlled Access Protocol

To make the review efficient and secure, information should be delivered in a structured, traceable and protected manner.

Required documentation	Document available
Data room index organized by folder, document name, version date and a short description of each file.	☐
Documents should be provided in searchable PDF format whenever possible; databases, reconciliations, reports and technical materials should also be provided in editable or native format when relevant.	☐
Any missing, incomplete or non-applicable document should be identified with a brief explanation and, where possible, equivalent evidence or an estimated delivery date.	☐

Final note

This document is intended as an initial professional request for information. Rusconi Consulting may request additional documents, confirmations, interviews or system reviews if the information provided reveals inconsistencies, incomplete records, regulatory observations, tax contingencies, technology risks, labor contingencies or other matters relevant to the due diligence review.
